Stone Coat Ventilation

Roof Vents

Part #	Description	Colors	Pieces/ Box	Boxes/ Pallet
SCARVA51 - -	Mushroom Roof Vent	*(Listed Below)	8	9

Mushroom vent is used for pitches 8/12 or less and provides 50 square inches of net free air flow per vent.

**Available in these roof granule blends: B3 - Bark Brown, BK - Black, C3 - Charcoal, WW - Weatherwood, GN - Green, MU - Musket Pebble, PE - Pearl White.*

SCASLA - -	Slant Back Roof Vent	*(Listed Below)	6	9
------------	----------------------	-----------------	---	---

Slant backs can be used on most roof pitches and provides 50 square inches of net free air flow per vent.

The slanted portion keeps water from coming in the back of the vent and has a guard to keep out bird nests.

**Available in these roof granule blends: B3 - Bark Brown, BH - Beach Brown, BK - Black, C4 - Cedarwood, C3 - Charcoal, S6 - Sierra Brown, WW - Weatherwood, GN - Green, MU - Musket Pebble, PE - Pearl White.*

ROOFING *Accessories*

ACM is a "one stop shop" manufacturing system for your exterior metal products.

ACM manufactures rainware, edge metals, trim coil, soffit and fascia, and siding accessories. We are constantly upgrading our plants and machinery to improve quality, add additional profiles, and create new innovative products.

Homeowners want consistent color matches for their soffit and fascia, rainware, edge metals, trim coil, and siding accessories.

Some contractors buy gutter coil, soffit and fascia, edge metals, etc., from a wide variety of manufacturers and supply centers to get the lowest cost. The end result is that their components don't quite match and now it's permanently spoiled the appearance of the home.

Our **Color-Thru System™** has 24 colors to which you can match all parts of the house. You can use this system of colors to help you sell more jobs. The homeowner will see more value in your proposal if you can provide accurate color matches on all parts of the house.

Aluminum is made with majority of post consumer waste.

Aluminum and steel are recyclable, aluminum even more so. Did you know that Aluminum can be recycled over and over again? 75% of all aluminum ever smelted is still being recycled.

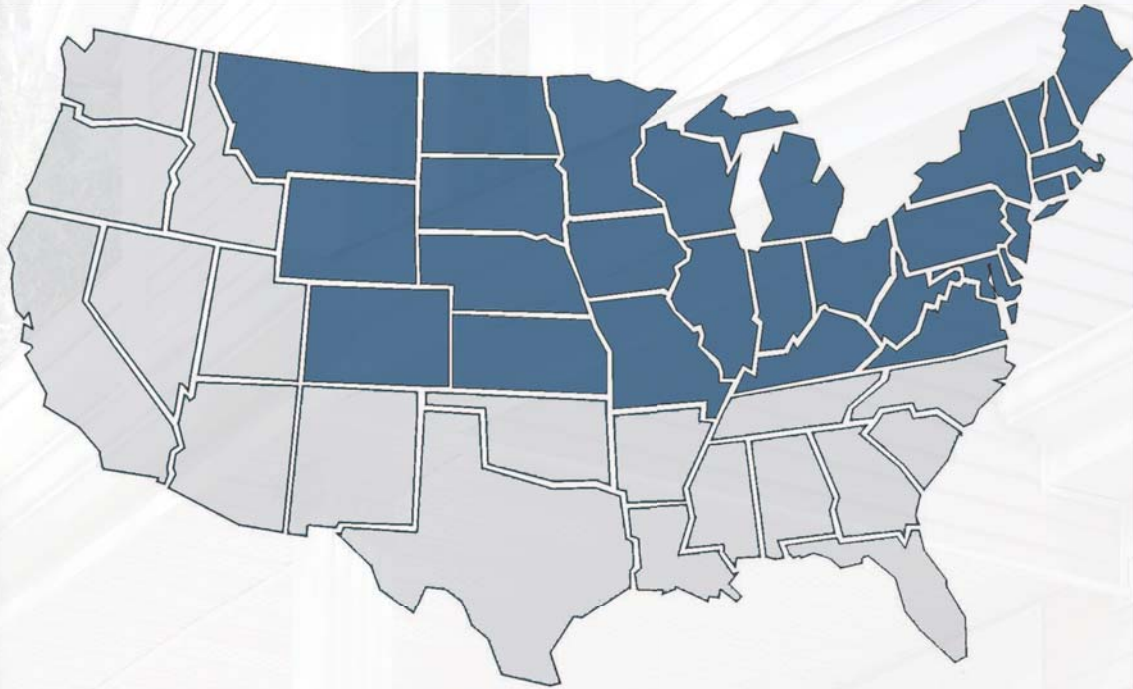

We keep Green Circle Certificates on hand for your access proving that 75% more of our raw material comes from recycled consumer waste. You may use this information to advertise that you are a "Green" company or as back-up documentation for government projects.
